

INDUSTRIAL RACK CABINET

AGC Instruments provides a “Total Solution” to our customers. This involves designing a Gas Chromatograph system based solely on the application provided by our customer. By incorporating the Gas Chromatograph, the Data Capture Interface, the Sample Handling Unit and a Computer within an Industrial Rack Cabinet from Rittal, AGC Instruments Ltd can provide a Turnkey solution that AGC will guarantee for you.

Description

We can provide from a choice of manufacturers However, our preference is a Rittal cabinet. It is supplied as a complete frame, side panels, a steel rear door, a side vented top, four panel mounting members and panel mount supports. Cover Trims are provided where a front door is not required, giving a neat front appearance. Please note that the side panels are removable.

Depending on the exact application, AGC will select the additional brackets, shelves etc that are required to allow the AGC Analysers, Computers, Printers to be installed.
